

Information Analysis

Personal and Contact Information:

- **Name:** Oleg Viatkin
- **Pronouns:** He/Him
- **Location:** Berkeley, California, United States
- **Profile Headline:** "math @ berkeley | janitor @ lawloop"
- **Followers:** 3,354
- **Connections:** 500+

Education:

- **University of California, Berkeley (2023 - 2025):** Pursuing a Bachelor's degree in Computational and Applied Mathematics. His activities include being the academic chair for the Alpha Tau Omega fraternity, where he humorously notes his role is to "give people jobs."
- **The British International School of Kuala Lumpur (2021 - 2023):** Completed A levels in Mathematics, Economics, Graphic Design, and an Extended Project Qualification (EPQ), achieving high grades (A, A*, A*). He was heavily involved in extracurriculars, including the Student Leadership Team (Prefect of Learning), Model UN (from Delegate to Chair), and won first place in KTJ Oxbridge Engineering.

Professional Experience: Oleg's experience is characterized by a multitude of short-term roles, often overlapping, across various fields including software development, entrepreneurship, marketing, and finance.

- **growth at Cursor (Aug 2025 - Present):** A very recent role with the description "distributing vibes on campus."
- **Co-Founder at LawLoop (Sep 2024 - Present):** A venture aimed at helping small law firms, which he notes is "backed by pear vc."
- **Core Engineer at TeachShare (Feb 2025 - Jun 2025):** A part-time role focused on end-to-end product development.
- **core team dev at Berkeleytime (Feb 2025 - May 2025):** A role with the self-deprecating description "showing up 10 min late."
- **Multiple roles at Blockchain at Berkeley (Feb 2024 - May 2025):** Progressed from a Product Developer ("big blockchain guy") to Head of External ("bigger blockchain guy").
- **campus strategy at Perplexity (Jan 2025 - May 2025):** A strategy role.
- **Full Stack Developer at LayerAkira (May 2024 - Feb 2025):** A part-time role working on "order book dex and liquidity."
- **Head of Product at Quasm (May 2024 - Jan 2025):** A remote role in "zero-knowledge infra (acquired)."
- **Marketing at Sonia (YC W24) (Sep 2024):** A short-term contract role described as "ai therapist."
- **Co Host of Mistakes to Masterpiece Podcast (Aug 2023 - Sep 2024):** A self-employed position with the description "yapper."
- **Full Stack Developer at Cambridge Frontier Technologies Laboratory (Jun 2024 - Aug 2024):** A part-time role in "decentralized compute."
- **Student Manager for Cal Men's Basketball (Aug 2023 - Jan 2024):** A part-time role simply described as "balling."
- **Co-Founder at Bloom Bridge Software (Nov 2022 - Nov 2023):** Provided "tech consulting for malaysian SMEs."
- **Atlas Risk and Consulting Solutions Ltd (Mar 2019 - Oct 2023):** Long-term involvement as a Basketball Player and later as a freelance Basketball Team Captain.
- **Private Equity Intern at Navis Capital Partners (Nov 2021 - Dec 2021):** A brief internship in Kuala Lumpur.

Skills:

- Hustling (2 endorsements)
- Python (Programming Language) (3 endorsements)
- Machine Learning with Python

Deep Psychological Profile

Core Traits and Motivations:

Oleg Viatkin's profile suggests a personality characterized by **high conscientiousness, openness to experience, and extraversion**. His academic achievements and the sheer volume of his commitments point to a diligent and organized individual. However, the unconventional and often humorous descriptions of his roles reveal a playful and self-aware side that challenges the conventional high-achiever stereotype.

His primary motivation appears to be a **relentless drive for growth and new experiences**. The rapid succession of roles across diverse fields like software engineering, product management, venture-backed entrepreneurship, and even a podcast, indicates a person who is constantly seeking to learn and apply new skills. This is not just about building a resume; it's about an insatiable curiosity and a desire to make an impact in various domains.

Cognitive Style:

Oleg likely possesses a **highly agile and adaptable cognitive style**. His ability to switch between the technical demands of a "Full Stack Developer" and the interpersonal skills required for "growth" and "campus strategy" suggests a versatile thinker. His background in Computational and Applied Mathematics points to strong analytical and problem-solving abilities. The self-deprecating humor ("janitor @ lawloop," "yapper," "showing up 10 min late") woven into his professional experiences indicates a high level of self-awareness and emotional intelligence. It's a deliberate choice to project an image that is both impressive and approachable, signaling that he doesn't take himself too seriously despite his accomplishments.

Interpersonal Style and Leadership:

His extensive involvement in team activities, from sports to student leadership and co-founding companies, highlights his **strong collaborative and leadership skills**. The description of his role as academic chair for his fraternity—"give people jobs"—is a humorous but telling insight into how he perceives his responsibility to others. He likely thrives in social and dynamic environments. His leadership style appears to be more inspirational and action-oriented rather than rigidly hierarchical.

Potential Challenges:

The breadth of Oleg's experiences at such a young age, while impressive, could also be interpreted as a **lack of deep focus in one particular area**. The very short tenures in many of his roles might raise questions about his long-term commitment. However, this pattern is also common among highly ambitious students in the tech world who are in a phase of rapid exploration and skill acquisition. His self-deprecating humor, while endearing, might be misconstrued in more traditional or conservative professional settings.

Summary:

Oleg Viatkin presents as a highly driven, intelligent, and charismatic individual with a polymathic range of interests. He is a quintessential "builder" and "hustler" of the current tech generation, someone who is comfortable with ambiguity and rapid change. His psychological makeup is that of an ambitious entrepreneur who is not afraid to take risks and learn by doing. The juxtaposition of his impressive achievements with his down-to-earth and humorous self-presentation creates a personal brand that is both formidable and relatable. He is likely to be a dynamic and influential figure in his future endeavors.
